PRO A331 DTF PRINTER

HOT

Hanrun paper®

Hoson board card
I3200 original heads

Larger cartridge efficient printing

Perfect ink compatibility

Integrated film placement frame

With the passage of time, DTF printing technology is gradually becoming mature. Hanrun Paper's technical team is also in continuous research and development to optimize our original Pro-A330 DTF printer from a customer perspective. The new machine has been greatly upgraded in terms of operation convenience, operation stability, and multi-function integration, which makes it easier for customers to use and operation.

- Washing labels; all kinds of socks
- Fashion clothes
- Personalized customization

DTF PRO-A331 NEW UPGRADE

1

The PRO-A330 only has heating before printing, while the PRO-A331 has heating on the printing platform and the feeding platform,so the A331 can print pictures with higher ink volume.

2

The cartridge capacity of PRO-A330 is 250ml for color ink and 500ml for white ink, while the capacity of all cartridges of PRO-A331 is 500ml.

3

The covers on both sides of PRO-A330 are one-piece, while the two sides of PRO-A331 are switch-type, which is more convenient for inspection and maintenance.

4

The Pro-A330 film feeder is fixed on the desktop, while the PRO-A331 film feeder is connected with the printer for more accurate alignment.

DTF PRO-A331 PRINTER		
Printhead		2 heads EPSON i3200
Print Resolution/Speed		4pass(720*1200dpi): 10m²/h 6pass(720*1800dpi): 6m²/h 8pass(720*2400dpi): 4m²/h
Ink		DTF InK (CMYK+W)
Media	Max Width	350mm
	Max Roll Weight	30KG
	Thickness	0.1mm to 2mm adjustable
	Sort	A3/A4/330mm width DTF Transfer Film
Media Heater		Middle and back two stages of heating
Media Take-up Device		Double motor automatic media take-up device
Drying System		Infrared Ray Drying System
Guide Rail		Famous Brand: THK From Japan
RIP Software		Maintop
Language		Chinese/English
Voltage		Standard AC 220V±10 %, 50/60±1Hz, optional110V±10 %, 50/60±1Hz
Power		0.8KW （w/o Heater）
Working environment		Temperature: 20℃-35℃,Humidity: 35%RH-65%RH
Dimensions of Printer		L985* W510* H520mm
Dimensions of Packing		L1080* W810 * H610mm
Net weight		60kg

POWDER SHAKER B301

Model	B301
Match model	A331 2-head DTF printer
Temperature control scope	0-170°C
Speed regulation range	Synchronize with printer speed
Maximum heating pipe power	2.4KW
Medium width	0-300mm
Method of transmission	Conductor traction
Automatic volume collection	√
Air suction device	x
Upper powder device	Top manual powder direction and powder amount automatically control
Refer to powder device	Bottom powder box, need manual powder return
Input voltage	AC220V/110V 60/50Hz
Power	3KW
Consumption	Energy consumption 1-2.3KW
Work environment	15-30°C 45-65%RH
Powder shaker Dimensions	L850*W650*H600mm
Net weight	40kg

SMOKE PURIFIER P002

Model	P002
Input	AC220V 50Hz
Air	280m³
Net filtration	280m³
Net filtration	0.3pm>99%
Noise	<45DB
Power	<45DB
Product size	448*248*490mm
Packaging size	540*370*650mm
Weight	18KG
