

SHANDONG GAOXIN CHEMICAL CO.,LTD

TECHNICAL SPECIFICATION

HCPE-M

DATA SHEET:

NO.	ITEM	UNIT	INDEX
			HCPE-M
1	Chlorine content	%	67~68
2	Apparent density	g/ml	0.25±0.03
3	Dissolved state (dissolve in 8% dichloroethane solution)		Transparency
4	Volatile content	%	≤0.40
5	Viscosity (Tu-4cup/25°C)	s	30~50
6	Dissolved time	min	≤25
7	Apparence		White and yellowish granules

Features:

Medium viscosity grade, used in coating, high viscosity, strong adhesion, thick coating film, good impact resistance.

Usage:

applicable to anticorrosive paint, building paint, fireproof paint, chemical equipment paint and road marking paint.

Package:

polyethylene and polypropylene bags, each bag is 20±0.1 Kg
