

SHANDONG GAOXIN CHEMICAL CO.,LTD

TECHNICAL SPECIFICATION

HCPE-A

DATA SHEET:

NO.	ITEM	UNIT	INDEX
			HCPE-A
1	Chlorine content	%	67±0.5
2	Apparent density	g/ml	0.15±0.03
3	Dissolved state (dissolve in 8% dichloroethane solution)		Transparency
4	Volatile content	%	≤0.40
5	Viscosity (Tu-4cup/25°C)	s	60~90
6	Dissolved time	min	≤45
7	Apparence		White powder and no-toxic no odor

Features:

High viscosity grade, used as adhesive, relatively low viscosity, high bonding strength, easy to construct.

Usage:

It is applied to the adhesion of various PVC pipes, pipe fittings, plates and other materials.

Package:

Polyethylene and polypropylene bags, each bag is 20±0.1 Kg
