

# Honeybee Microbee plus portable cutting machine

## Portable, Economical, Flexible CNC Cutting Machine

- With servo motor
- Working size maximum to 2500mm x 6000mm
- 2-32mm mild steel&stainless steel cutting
- 5-150mm mild steel cutting
- Cutting speed 0-6000mm/min

**After five years, Honeybee launches a new product again-Honeybee Heavy Duty Portable CNC Cutting Machine!**

Except inheriting all the advantages of Honeybee first and second generations, HB2015LCD enjoys more functions and wider application range.

**Bigger Cutting Scope ,  
Better Cutting Quality**

Equip 200A plasma generator max

Servo motors

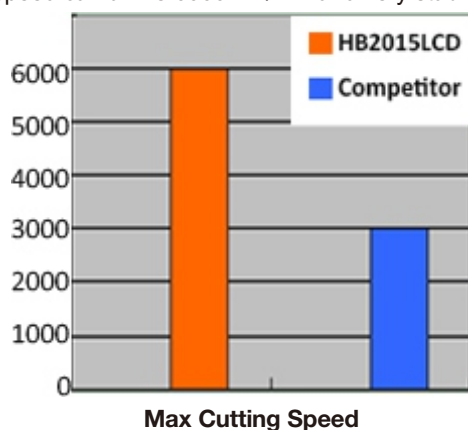

Si

# Honeybee CNC

### Higher Speed, More Smooth Running

Travel speed can arrive 6000mm/min and very stable.

Transverse Cutting Range

### More Functions

Standard configuration Oxy-fuel solenoid valve, Electric torch lifting, Arc voltage (or Capacitance) auto torch height control (THC).

### More Powerful Drive Ability

Use the structure mixing servo motor drive and reducer.

## Honeybee Heavy Duty Portable CNC Cutting Machine(HB2015LCD)

Type	HNP-2500×3400
<b>Input voltage</b>	110V/220V/380V/440V/600V
<b>Power supply frequency</b>	50/60Hz
<b>Rate power</b>	300W
<b>Transverse effective cutting</b>	2500mm
<b>Longitudinal effective cutting</b>	3400mm lenth can be extended to 6 meters
<b>Cutting speed</b>	0-6000mm/min
<b>Cutting thickness (flame)</b>	0-150mm
<b>Cutting thickness (plasma)</b>	2-32mm Depends on plasma power capacity
<b>Machine weight</b>	110KG
<b>Pressure of oxygen</b>	≤1MPa
<b>Packing size of the rail and beam</b>	4100×450×200mm
<b>Package size of host machine</b>	660×550×435mm
<b>Electric torch lifting</b>	standard configuration
<b>Torch height control</b>	standard configuration
<b>Solenoid valve control</b>	standard configuration
<b>Driving mode</b>	Hybrid servo motor(with encoder feedback)

Maximum Plasma Cutting Thickness of up to 32mm(1.25in)

Maximum Oxy-fuel Cutting Thickness of up to 150 mm (5.9 in.)

### A name you can trust

For more than 10 years, Honeybee Cutting Systems has been offering complete, industry-leading cutting solutions to customers around the China. As a total system supplier, support and service are always just a phone call away.
