

# Honeybee multi-head strip cutting machine

- Both cnc and strip cutting
- Better performance ,more rigid and durable construction
- High efficiency, easy to operate,high precision,high quality
- Safe and save manpower
- Widely applied in construction,steel structure,shipbuilding industries

## Technical parameters list:

<b>Track Span(m)</b>	3.5	4	5	5.5	6	8	10
<b>Rail length(m)</b>	12	12	14	14	14	16	16
	Every the length of rail is 2m, Can be lengthened according to Users demand.						
<b>Torch No.</b>	Torch quantity can be customized.						
<b>Max cutting Area</b>	2.6*10	3.1*10	4.1*12	4.6*12	5.1*12	7.2*14	9.2*14
<b>Cutting thickness</b>	6~200mm (Oxy-fuel);						
	Depends on plasma power capacity (Plasma)						
<b>Driving Mode</b>	Single driving		Dual driving				
<b>CNC system</b>	HBCNC system,USA Hypertherm system for option						
<b>Program software</b>	Australia FastCAM professional edition						
<b>Speed Range</b>	0~10000mm/min						
<b>Cutting gas</b>	Oxygen+acetylene/Propane; plasma cutting gas depends on plasma model						
<b>Option function</b>	Oxy-fuel: Auto-ignition, Auto THC, Powder marking, Linear Triple Torches;						
	Plasma: Auto THC.						

## A name you can trust

For more than 10 years, Honeybee Cutting Systems has been offering complete, industry-leading cutting solutions to customers around the China. As a total system supplier, support and service are always just a phone call away.
