

Product features:

1. User friendly Control panel
2. Sturdy and stable structure
3. PLC Control system
4. Smart system One-Key width adjustment
5. Accurate and parallel PCB width adjustment (Leadscrew)
6. Modes: 1-in 1-out, 1-in 2-out, 2-in 1-out, 2-in 2-out
7. Tower lamp and buzzer
8. SMEMA interface

Technical Specifications

No	Item	Design Parameter
1	Machine dimension [L*W*H]	500mm*1450mm*1045mm
2	Power supply	AC220V/50/60HZ
3	PCB transport height	910±20mm
4	PCB size [L-W]	50mm*50mm-330mm*300mm
5	PCB thickness	0.4~5mm
6	PCB transport direction	One click switch
7	Track inlet and outlet protection	Install protection sensor
8	Type of conveyor belt	<3mm flat belt
9	Conveyor width adjustment mode	Automatic
10	Platform shuttle position	Track 1 is fixed, track 2 is adjustable, shuttle distance >600mm
11	Control system	PLC+Screen
12	Cycle time	< 6 second
13	Operation table	Single
14	Communication mode	Standard SMEMA+MES interface(automatically widened)

(*Also customized for other special requirements)
